

#ALLOFUS

State Government should work for us.

In the state capitol in Albany our Governor,
State Senators, and Assemblypeople have been
sent to do the people's work.

But it's out of whack.

Unfortunately the current system is out of whack. Despite the gallant efforts of some very principled public servants, the people's work goes largely undone

There's two Albanys.

One for them.

And one for the rest of us.

The 1% Agenda VS All of Us

Tax breaks for major corporations fly through the legislature. Large interests like the Casino industry can push through laws making NY a home for gambling. In the flip side, millions of school children struggle to get adequate funding for their educations.

Albany is working...

for them.

Let's look at how this works.

The Players

The State Senate
The Assembly

The Governor

The State Senate

S

Dean Skelos
Republican

Jeff Klein
IDC Democrat

The Assembly

A

Sheldon Silver
Democrat

The Governor

G

Andrew Cuomo
Democrat

Negotiations

All three of these parties, The Governor, The Senate represented by Skelos and Klein, and the Assembly, represented by Silver, negotiate the details of the budget and decide which bills will be voted on.

Negotiations

These negotiations are where so much happens for our state. It is where corporations, major campaign contributors, and their lobbyist yield the most influence on the process and get their laws and tax breaks passed. It is also where so many good laws go to die.
