

Governor Cuomo is working for them not for us.

Wall Street and hedge funds are turbo-charging inequality,

getting richer and richer. Cuomo cut their taxes.

Luxury Manhattan apartments for billionaires

Cuomo gave them subsidies and property tax breaks.

Their business deals have destroyed jobs —

the number one concern of voters—all across New York.

some pay nothing.

Twelve billionaires bought the Senate and a big piece of Cuomo.

They destroyed our economy.

They corrupted our government.

CUOMO:

- Attacking teachers to please his billionaire backers
- Putting his own career above what's best for New York
- Pays more attention to what Wall Street wants than to what our schools and communities need

Stop the political fights – work with parents and teachers to make schools better.

Make school funding fair and equitable – and make Wall Street billionaires pay their fair share to help pay for it.

Address inequality – a strong minimum wage for workers and a stronger safety net for those in need.

Stop wasteful subsidies for big corporations and CEOs – focus on creating good jobs with good pay and benefits.

And get big money out of politics with Fair Elections public funding

so we can take Albany back from the billionaires.
