BILLIONAIRES BOUGHT ALBANY
They’re the masters of the universe

billionaire hedge fund managers and Wall Street titans
The richest men in America, getting richer while the rest of us struggle.
Governor Cuomo is working for them not for us.
Wall Street and hedge funds are turbo-charging inequality, getting richer and richer. Cuomo cut their taxes.
Luxury Manhattan apartments for billionaires

Cuomo gave them subsidies and property tax breaks.
Their business deals have destroyed jobs — the number one concern of voters — all across New York.
They live in incredible luxury and don’t pay their fair share of taxes—some pay nothing.
They use their money and influence to corrupt our government and our political system.

Twelve billionaires bought the Senate and a big piece of Cuomo.
They destroyed our economy.

They corrupted our government.
Now they want Cuomo to attack public schools and public school teachers.
• Attacking teachers to please his billionaire backers
• Putting his own career above what’s best for New York
• Pays more attention to what Wall Street wants than to what our schools and communities need
WE CAN DO BETTER
Stop the political fights — work with parents and teachers to make schools better.

Make school funding fair and equitable — and make Wall Street billionnaires pay their fair share to help pay for it.
Address inequality—a strong minimum wage for workers and a stronger safety net for those in need.

Stop wasteful subsidies for big corporations and CEOs—focus on creating good jobs with good pay and benefits.
And get big money out of politics with Fair Elections public funding so we can take Albany back from the billionaires.
